

100 Saplings Plantation Program

100 Saplings Plantation Program was organized on August 10, 2017 by the Dept. of Botany at the Botanical Garden in association with the Eco-club of Environmental Sciences Department. To mark the eve of Centenary Celebrations of Osmania University 100 important medicinal plants were added to the existing garden. Around 40 important/ rare / uncommon medicinal plants were planted in the botanical garden which have been collected from different State Government and Forest departments' nurseries like Central Institute of Medicinal and Aromatic Plants; Ayurveda College at ESI, Hyderabad.
